

Position Title: Business Intelligence Consultant/Sr. Consultant**Department: Professional Services*****Our Mission:***

PointBridge is a consulting company that works with customers to improve their business performance by connecting people to people and people to information with Microsoft technologies. We build award-winning collaboration and communication solutions with Microsoft technologies including SharePoint, Exchange, Office Communications Server, and SQL Server.

Position Summary:

PointBridge has several consulting opportunities for people with 3-5 years technical consulting experience with Microsoft business intelligence solutions including the delivery of data warehouse and business intelligence solutions. Knowledge and use of SQL Server 2008 business intelligence tools preferred - including Reporting Services, Integration Services, and Analysis Services. Experience with PerformancePoint and the integration with SharePoint a plus. Must have a working knowledge of cubes, ETL, SQL Server and the data warehouse lifecycle. As a consultant you will be working with clients on requirements and implementations to help them realize their full potential and business value by delivering innovative technology solutions.

Responsibilities:

- Work independently or on a team to design, build, stabilize and deploy Microsoft Business Intelligence solutions including SQL Server, SSIS, SSAS, SSRS, PerformancePoint, Excel Services, and SharePoint
- Participate in customer team meetings to gather business and technical requirements for projects
- Participate in team meetings to discuss ongoing project status and deliverables
- Apply and share knowledge; contribute ideas and opinions

Knowledge, Skills, Certifications:

- Strong experience with SQL 2008 in the following areas:
- Microsoft Business Intelligence tools (SQL Analysis Services (MOLAP, MDX), SSIS, SSRS)
- Reporting: SQL Server Reporting Services
- ETL: Integration Services or a similar tool
- Extensive experience in developing BI applications such as business area dashboards or large enterprise applications such as an Enterprise Information Portal and its components
- A working knowledge of security within SQL Server and the business intelligence tools
- Experience with query tools, report writers and OLAP tools (Reporting Services, Business Objects, Cognos, Hyperion Reports/Analyzer)
- Strong understanding of dimensional modeling and design (Star Schema, Snowflake Schema)

Additional requirements for all PointBridge employees:

- Strong communication skills and ability to present to small/medium groups
- Strong customer relationship skills
- Ability to work well in a team environment
- Demonstrated ability to successfully multi-task
- High energy and a self-starter
- Proficient in Microsoft Office applications
- Demonstrated ability to embrace and support our Core Values

Other helpful skills/experience

- MCSD or MCDBA certifications
- MBA or educational background in information systems with an emphasis in data warehousing and business intelligence, or equivalent

Culture and Values

Candidates of PointBridge must exude the qualities that are core to the values of PointBridge:

- **Customer Experience**—*Delivering beyond expectations through not only the quality of our work but the quality of service we deliver to every customer*
- **Entrepreneurial Passion**—*Ambition to aggressively drive growth embracing change and continuous improvement*

- **Technical Brilliance; Total Reliability**—Discipline in mastering our craft through pride, leadership, and accountability in our work
- **Winning Together**—Teaming with, and respect for, co-workers, customers, partners and the community to build lasting relationships that drive results
- **Integrity**—Delivering what we promise and always choosing to do the right thing
